Education

Rungta International Skills University

2025 – 2029

B.Tech in Computer Science (AIML) — In association with Google

Holy Cross Sr. Sec. School (CBSE)

2024

Senior Secondary Education

Experience

Cardano Hackathon Asia 2025 – Finalist

Built MasumiGuard, an AI + Blockchain compliance system with anomaly detection and tamper-proof validation.

GitHub Dev Days Hackathon – Winner

Developed an AI-powered solution leveraging modern developer tools and cloud deployment.

Smart India Hackathon (SIH)

Contributed to national-level innovation challenge focusing on architecture and rapid prototyping.

Google Study Jam – Tier 1 Recognition

Completed advanced cloud and AI learning pathways.

Campus Ambassador – Perplexity

Promoted AI adoption within student community.

Technical Projects

Sankat Sahayak | Full Stack, AI, OCR, Cloud

Built a multimodal AI-powered emergency reporting system integrating OCR, cloud storage, and real-time FIR report generation.

ConceptForgeAI | AWS, Bedrock, DynamoDB, API Gateway

Built serverless AI platform generating startup idea evaluation scores.

Content_to_scope | React, AWS, OpenAI API

Engineered AI-driven content optimization system.

MasumiGuard | Python, AI Models, Blockchain

Designed anomaly detection engine for transaction monitoring.

InternNova | HTML, CSS, JavaScript

Developed responsive internship discovery platform.

Achievements

- Cardano Hackathon Asia – Finalist
- Winner – GitHub Dev Days Hackathon
- IIT Roorkee E-Summit Participant
- 100 Days of Code (Ongoing)

Technical Skills

Languages: Python, JavaScript, Java, C, SQL

Web: HTML5, CSS3, React, Node.js, REST APIs

Cloud: AWS (Lambda, DynamoDB, S3, CloudFront), Google Cloud Platform

AI & Tools: Stitch, Antigravity, Kiro, GitHub Copilot, ChatGPT, Claude, Perplexity, Cursor

Core Areas: AI/ML, DSA, Cloud Architecture, Blockchain Security
